

To whom it may concern,

I wish to call for an immediate stop to the building of the B50neu and the Hochmoselübergang by adding my name to **petition Nr. 10681 at the Bundestag.**

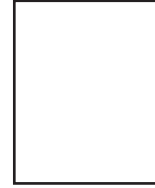

The bridge and highway will interfere with the cherished Rieslings of the Mittlemosel, which are unique, world-renowned, and irreplaceable.

I urge the German Government to reconsider its plans and conserve the immense cultural value of this paramount site.

Yours faithfully,
